¹Using TAD unit.

Complete solutions from the industry experts

With over 20 years providing wanderer security systems, Accutech is one of the most experienced companies in the industry. You can trust our leading technology to ensure your residents' complete safety.

Our full spectrum of upgradeable security platforms fit your budget and your facility – for today and tomorrow.

- LC 1100 – the low-cost, easy-to-install alternative ideal for home use or small facilities
- LC 1200 – the cost-effective choice for all your security needs
- ES 2200 – the upgradeable, proven Accutech platform
- IS 3200 – the software-enhanced system with history reporting capability
- IS 3300 – the beaconing system for greater awareness

With Accutech, you get the affordable wanderer security solutions you need for complete patient security and peace of mind.

Growing demand for security

Consumers expect their loved ones to be cared for in safe, secure facilities. As the demand increases for long-term elderly care, wanderer security systems become a necessity. Liability concerns also require facilities like yours to take preventative measures to meet this need.

Elderly populations are showing an increase in dementia, which is one of the most important health issues affecting resident security. Wanderer systems let you effectively care for these patients without limiting their freedom.

With Accutech's experience, quality and service, we can help you choose a wanderer security system that addresses these issues so you can continue to provide excellent resident care.

Transmit antennas monitor doors, hallways and elevators.

Lightweight, water-resistant tags ensure resident safety.

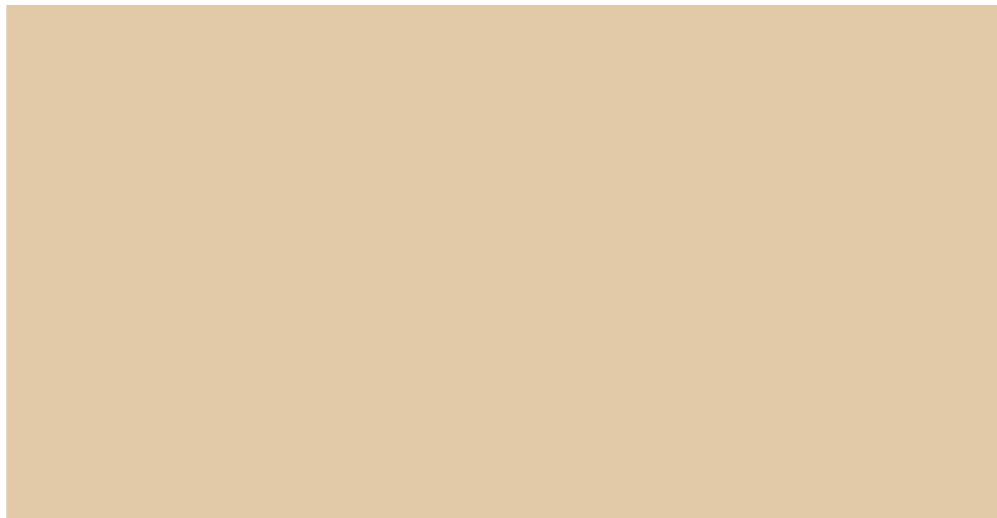

Accutech systems are built for long-lasting durability.

Exclusive features for peace of mind

Accutech offers:

- Unique tags that can be deactivated to save battery life, reduce replacements and simplify use. They're also water-resistant for enhanced durability.
- A one-year, non-prorated warranty – one of the best in the industry – that ensures your system's quality. Or choose an extended warranty for up to four years of protection.
- A start-up kit with every new system. This includes everything you need – including a tag activator/deactivator (TAD), test tag and zone tag – to easily utilize and maintain your system for years to come.
- American-manufactured systems to support economic growth at home.
- Financing and leasing/rental options that allow you to choose a system that meets your budget.
- Easy installation and quick service. We have a network of local service providers on call around the clock to help you at any time for any reason. This provides you with quick and economical service to keep you running safely.
- Contract pricing – Government, GPO and corporate pricing, as well as bulk pricing on disposables.
- Interference prevention with the 418 MHz radio frequency.
- A double-conditioning design to prevent false alarms.
- Zero footprint – wall-mounted, flat-screen monitors and keyboards with built-in CPUs require no countertop space.
- Software-enhanced systems that continue to maintain perimeter security, even if your computer crashes.
- Systems tested to meet all required standards and regulations.
- Free software updates with a one-time software license fee.
- Protection for adults, pediatrics and assets under one system.

Accutech is a division of Innovative Control Systems, Inc. (ICS), an industry-leading supplier of quality security systems for over 20 years. ICS provides wanderer and infant security systems under the Accutech name and DNA solutions under the iDNA Match name to meet all your security needs. We offer unparalleled experience, technology and service to ensure your complete satisfaction.
